*Educational Panel on site*

## DÉPOLLUTION DE L'EAU

# Installation of a pedagogical panel

**The Bois de Boulogne site is designed to inform and raise awareness among the population about environmental issues.**

*Published on 14 January 2025*

Although the project is to depollute rainwater from the Paris ring road using natural and environmentally friendly tools, its goal is also to provide technical and biological knowledge to people who live near the park. This is why the Water and Sanitation Department (STEA) of the City of Paris has created an educational panel explaining to people who consult it on site how the filter works and its role in improving the quality of the water in the Seine.
