## ENTRETIEN

# Weed removal 2026

**Weed removal and filter refurbishment: a new year dedicated to environmentally friendly maintenance**

Published on 13 February 2026

At the beginning of this year, Terideal carried out a weed-cutting operation on the filters.

This operation involves cutting and removing vegetation to preserve water flow, limit plant accumulation on the ground, and promote biodiversity. Performed during the winter months, it prepares the environment for the regrowth of vegetation in the spring.
